

Saint Anne

Words & Music by Joe Vulpis

When I close my eyes at night
I feel your presence at my side
All the friends you gave to me
We've grown to one big family

A saint who shines her light
Who guides me through each day
Gave me strength when I was weak
Faith to just believe

Hand to hand, heart to heart
You've raised me to this place
You're every reason I'll go far
Put my trust in you, you can trust in me
Saint Anne you're everything to me

There's been laughter, there've been tears
Comes with growth in every year
There's a price you have to pay
For the wisdom that you gain

Somehow we always make it through
Instilled values of our youth
There's no mountain we can't climb
There's no dream we can deny

Hand to hand, heart to heart
You've raised me to this place
You're every reason I'll go far
Put my trust in you, you can trust in me
Saint Anne you're everything to me
