April 2018

As I write this article, I am thinking what a crazy spring we are having so far, more snow and unseasonable temperatures. We haven't even made it outside for gym classes yet. I hope we get to eventually get some seasonable temperatures so we can utilize our parking lot for some walking and jogging.

I hope everyone had a nice Easter and enjoyed the time off with family and friends. It's time however, to get back to school and continue the activities involved with our physical education program here at St. Anne School.

In grades PK to grade 2, we will continue our rhythm and dance activities for another week or so and then take a break from them to begin fitness activities and fitness testing when the upper grades begin fitness. I would like to try to keep all grades involved with fitness activities on the same unit at the same time. When the fitness unit is over, we will get back to rhythm and dance if possible. We will see.

In grades 3 to 8, we will be finishing the floor hockey unit with our last class game the week we get back. We will then begin the fitness unit and fitness tests. Students will take five different fitness tests and for those who pass each and every test, they will receive a certificate for their hard work and overall great fitness level. This activity will take us to at least the middle of May.

As far as the mission collections go, the children at our school raised \$55 for the month of March. The 2nd and 8th grades collected the most money and so, they will display the mission banners for the month of April.

Thanks to all who participated in The American Heart Association's Jump Rope for Heart. We raised a total of \$990 so far. Our top fundraiser was Cadence Durning in grade 2. Cadence was also our top fundraiser last year. Great job Cadence and thanks. I will continue to accept pledge envelopes or online donations till April 27th.

Next month, we will have our annual Field Day at Memorial Park. More information will follow in next month's article.

Enjoy April and God Bless.
