

Mrs. LoBue – Reading Enrichment

a.lobue@stannenj.com

Hello and Happy New Year!

Throughout the month of January, I will continue to work along with the teachers and their recommendations to support skills being taught in weekly reading units. The lessons will include review and enrichment lessons of letter sounds, spelling and vocabulary words, and writing. In addition, the second grade will continue to work with their non-fiction Super Magazine that has lots of opportunities to read and explore our world in a variety of ways. The third grade will continue to work on their cursive writing skills.

A very important part of each lesson is story time. I read a grade appropriate story to the class and then a discussion follows, when story elements are highlighted. We discuss story details such as, characters, plot, and setting.

One day a week I work with small groups, to review basic skills and give further support when needed.
