

Mrs. McCrudden – Grade 3
k.mccrudden@stannenj.com

February is a short, but busy month in third grade!

We are approaching the end of our chapter on division working with the related multiplication facts. Please continue to review these facts nightly especially if your child is still having trouble with them. We will eventually be working on multiplying $\times 6$ through $\times 9$.

We are expanding our reading skills in our reading series, McGraw Hill Reading Wonders. The students are getting exposed to a variety of genres and are learning many new skills including how to cite text evidence.

Lent begins on Wednesday, February 14. We will attend Mass this morning to receive ashes.

Students may send in Valentine cards if they wish to exchange on February 14th.
